Subject:	Contact your Senator Today supporting Henderson's SB112- on Senate floor today

Hi everyone,

Senator Henderson's SB112 will likely come up for a vote on the senate floor today. This is the bill that will allow applications/changes at the Driver License Division to automatically flow through to VISTA, and is our committees 2nd top priority for the session this year.

Please express support to your senator(s) today. I've included some of the talking points below that you are welcome to use.

Thanks!
R.

The bill simply changes the voter registration question on the Driver License Application from an opt-in to an opt-out. Voters will always have the choice to opt-out of registering to vote. In fact, they have 2 chances at opting out: on the form itself and on the confirmation card that we email to them afterward.

- This will dramatically reduce the number of provisional ballots that we need to process. In 2016's presidential election, 1 out of every 5 voters who voted in person was a provisional voter, causing longer lines.
- About 16% of Utah's population moves every year. This streamlines the process by which election officials receive notification of their moves.
- This will help keep our voter rolls much cleaner than before, because the DLD will forward address changes to us.
  - Most voters already think this is happening.

1

Subject:	Copy of State Contract with ES&S

What a great meeting this week with about 60 county election administrators and ES&S! The more I learn about the functionality of the new system, the more excited I am to start using it.

It appears that over 50% of counties plan to implement the new system in 2018, with more in 2019. Many of you have asked for a copy of the state contract with ES&S. Katy Owens Hubler, who did a great job managing the whole RFP process, provides instructions & some helpful tips below:

The state contract is available and online through the state contract search at http://purchasing.utah.gov/statecontractdirectory/

Search under the contract number: AR2762

A couple of notes on it:

- Attachment E is the Scope of Work and I recommend reading that for a description of what we've required of ES&S and how it relates to the counties.
- Attachment F is the equipment description and pricing. Dan has been really good about sticking to this pricing, but it wouldn't hurt when counties are negotiating exact details to refer back to this to make sure they're getting the state negotiated price (this is the same attachment that we sent out during UAC). Also included in Attachment F is a description of the different Ballot-on-Demand options. This has been a bit confusing and there were
