**Date:** Wednesday, September 11, 2019 3:10PM  
**Attachments:** Draft Bill - Election Code Changes.pdf

---

Good Afternoon.

The Governor has called a special legislative session for next Monday, September 16 [REDACTED]

As you may recall from discussions earlier in the summer, last legislative session we worked to pass legislation that gave the counties one extra week between the end of convention and ballots going out to military and overseas voters [REDACTED]

Looking at the calendar for 2020 we realized that the last Tuesday in June was not the 4th Tuesday, like we normally see, but that there was actually a 5th Tuesday in June [REDACTED]

You can see these changes on the following pages on the attached bill:

[REDACTED]

This will also mean [REDACTED]

I know this throws off the calendar a bit. [REDACTED]

Thank you,  
Justin

A page with a large number of horizontal black bars of varying lengths, suggesting redacted text or a heavily censored document. The bars are distributed across the page, with some appearing in pairs or small groups. The lengths of the bars vary significantly, from very short to nearly full-page widths.

1

94

A vertical column of black redaction bars on a white background. The redaction bars are of varying lengths, with some being relatively short and others being very long, extending almost to the top and bottom of the frame. A vertical margin of black bars is present on the left side of the redacted area.

156

A large grid of black bars on a white background, likely a redacted document. The grid consists of approximately 20 columns and 30 rows of horizontal bars. The bars are of varying lengths, creating a pattern of vertical and horizontal lines. The overall effect is a high-contrast, abstract graphic.

A vertical column of 20 black rectangular bars of varying widths, positioned to the left of a large black rectangular area. The bars are arranged in a descending order of width from top to bottom. The first bar is the widest and the last bar is the narrowest. The bars are set against a white background.

A vertical column of 20 black horizontal bars of varying lengths, with a vertical column of 20 black squares on the far left.

A vertical column of black redaction bars on a white background. The bars are of varying lengths and are positioned in a staggered, non-linear pattern. To the left of the main column, there is a vertical margin consisting of a series of black bars of uniform length, creating a visual border on the left side.

A large number of black horizontal bars of varying lengths, likely representing a redacted list of items. The bars are arranged in a grid-like pattern, with a vertical column of bars on the far left and a horizontal row of bars on the far right. The bars in the center are of varying lengths, with some being very short and others being very long. The overall effect is a sense of a large, incomplete list or a redacted document.

A large grid of black bars on a white background, likely a redacted document. The grid consists of approximately 20 columns and 30 rows of horizontal bars. The bars are of varying lengths, creating a pattern of black and white vertical stripes. The grid is centered on the page and occupies most of the available space.

A vertical column of 20 black rectangular bars of varying widths, positioned to the left of a large block of text. The bars are arranged in a descending order of width from top to bottom, with the first bar being the widest and the last bar being the narrowest. The bars are set against a white background and are aligned to the left.

A large number of black rectangular bars of varying lengths are arranged in a grid pattern on a white background. The bars are positioned in several columns, with some columns having more bars than others. The lengths of the bars vary significantly, creating a visual effect of depth or a data visualization like a histogram.

A black and white image showing a series of horizontal black bars of varying lengths arranged in a grid pattern. The bars are positioned in rows, with some rows containing multiple bars. The lengths of the bars decrease from left to right across each row, and the total number of bars per row also decreases from left to right. The bars are set against a white background.

776

A page with numerous horizontal black redaction bars of varying lengths, indicating redacted content. The bars are distributed across the page, with some appearing in pairs or groups. The redaction bars are solid black and have a slightly irregular, hand-drawn appearance.

A large number of black horizontal bars of varying lengths, likely representing redacted text or data. The bars are arranged in a grid-like pattern, with some bars being significantly longer than others, creating a visual representation of data that has been obscured or protected.

A large number of black rectangular redaction boxes of varying sizes are scattered across a white background, obscuring the content of a document. The redaction boxes are irregularly placed, creating a pattern of black and white vertical bands. The sizes of the redaction boxes vary, with some being relatively small and others being quite large, covering several lines of text. The overall effect is one of a heavily redacted or censored document.

A black and white image showing a series of horizontal black bars of varying lengths arranged in a grid pattern. The bars are positioned in rows, with some rows containing multiple bars. The lengths of the bars decrease as they move from left to right across the frame. The bars are set against a white background.

A vertical column of 20 black rectangular bars of varying widths, positioned to the left of a large central black rectangle. The bars are arranged in a descending staircase pattern from top to bottom, with the widths of the bars decreasing as they move down the page. The central black rectangle is located on the right side of the page and is approximately twice as wide as the widest bar in the column.

A large grid of black bars on a white background, likely a calibration chart or test pattern. The grid consists of 20 horizontal rows and 10 vertical columns. The bars are of varying widths, creating a stepped, staircase-like effect across the entire grid. The bars are solid black and have thin white borders. The background is a uniform white.

A large number of black horizontal bars of varying lengths, likely representing redacted text or data. The bars are arranged in a grid-like pattern, with some bars being significantly longer than others, creating a visual representation of data that has been obscured or protected.

A large number of black horizontal bars of varying lengths, likely representing redacted text or data. The bars are arranged in a grid-like pattern, with some bars being significantly longer than others, creating a visual representation of data that has been obscured or protected.

A large grid of black bars on a white background, likely a redacted document. The grid consists of approximately 20 horizontal rows and 20 vertical columns of bars. The bars are solid black and vary in length, creating a pattern of horizontal and vertical lines across the page. The overall effect is one of a heavily redacted or censored document.

A large number of black horizontal bars of varying lengths, likely representing redacted text or data. The bars are arranged in a grid-like pattern, with some bars being significantly longer than others, creating a visual effect of obscured information.
