In a plot twist that's so unbelievable we had to check if
billionaire George Soros just named Lord Mark Malloch-Brown as President of Open Society
Foundation. Brown is the former CEO of Smartmatic.

Succeeding him as president will be Mark Malloch-Brown, the former UN deputy secretary-general and UK minister, who currently serves on the Foundations' Global Board. Malloch-Brown will take over effective January 1.

This year, Gaspard conceptualized and stewarded Open Society's contribution of \$220 million in grants to build power in Black communities, and \$200 million in global investments that included support for essential workers and other communities hit hard by COVID-19.

His Wikipedia page will likely be edited to take out a particular line in it regarding Smartmatic and suspicions of his complicity in election fraud. Currently, it reads:

non-profit research organization based in the Philippines, criticized him as being "a foreigner who made a career out of influencing elections".

With the 2020 presidential election in the United States being contested, this move seems conspicuously like a taunt by one of the likely architects and backers of the coup attempt. It's a signal that he's more in charge than we know, which has been demonstrated by mainstream media's unwillingness to ever mention his name. One adviser to this site warned me not to even publish a story about it, believing this to be an attempt to see who is willing to speak out against him.

Clearly, we are not taking that advice. Many on social media are reacting in similar fashion.

OMG...Soros just made the CEO of Smartmatic Election Voting the head of his radical leftist, anti-American globalist foundation.

I mean, there's a point where it's not just a "conspiracy theory" ... and I believe that exact point is now. #Corruption #BidenWasNotElected <https://t.co/jCbjHG0qt6>

As Matt Couch noted on The DC Patriot:

This is unbelievable America, George Soros just made the CEO of Smartmatic Election Voting the head of his radical leftist, anti-American globalist foundation.

We're serious by the way, this just happened and the conservative media is silent.

Is this a reward for a successful voter fraud scheme? Is Soros giving us the proverbial middle finger to show us he has no fear of exposure? The answer to both is probably affirmative. You can't make this stuff up, folks.

COVID-19 may take down an independent news outlet

Nobody said running a media site would be easy. We could use some help keeping this site afloat.

Colleagues have called me the worst fundraiser ever. I understand the journalistic side of running a news outlet. Paying the bills is a challenge we have survived. We have ads on the site that help, but since

ADVERTISEMENT

When I left a nice, corporate career in 2017, I did so knowing I wouldn't make nearly as much money. But what we do at NOQ Report to deliver the truth and fight the progressive mainstream media narrative that has plagued this nation is too important for me to sacrifice it for the sake of wealth. We know we'll never make a ton of money this way, and we're okay with that.

Things have become harder with the coronavirus lockdowns. Both ad money and donations that have kept us afloat for a while have dropped dramatically. We thought we could weather the storm, but the so-called "surge" or "2nd-wave" that mainstream media and Democrats are pushing has put our prospects in jeopardy. In short, we are now in desperate need of financial assistance.

The best way NOQ Report readers can help is to donate. Our **Giving Fuel page** makes it easy to donate one-time or monthly. Alternatively, you can **donate through PayPal** as well. We need approximately \$11,500 to stay afloat for the rest of 2020, but more would be wonderful and any amount that brings us closer to our goal is greatly appreciated.

The second way to help is to become a partner. We've strongly considered seeking angel investors in the past but because we were paying the bills, it didn't seem necessary. Now, we're struggling to pay the bills. This shouldn't be the case as our traffic the last year has been going up dramatically. June, 2018, we had 11,678 visitors. A year later in June 2019, we had 114,192. In June 2020, we had 614,192. We're heading in the right direction. We're looking for patriotic investors who want to not only "get in on the ground floor" but also help America hear the truth. Interested investors should contact the information listed above.

Why is this criminal (according to many foreign governments) allowed to remain in this country. He is here, enjoying his freedom, while he works to enslave WeThePeople. It is time WeThePeople focus on removing him the public stage - and that goes for his American-hating sons.
