stolen if we're to believe Lt. Gen. Thomas McInerney during his most recent interview with Two Mikes.

The General described "Hammer" and "Scorecard," a pair of programs initially designed for the CIA before being privatized by Deep State players from the Obama administration. We explained how they work in an article last week, but the gist is this: "Hammer" or "THE HAMMER" is a counter-intelligence surveillance program used to spy on activities on protected networks (like voting machines) without detection while "Scorecard" is a vote-manipulation application that changes votes during transfer. It's the least detectable form of election manipulation because it works during data transfer between voting stations and data storage hubs. Unless both sides are looking for irregularities, it's impossible to catch. If nefarious forces had people on one side or the other (or both) during data transfer, it cannot be exposed.

The day before the election, General McInerney spoke to Two Mikes about the details surrounding "Scorecard" and called on the White House and the Trump campaign to take action before voting started.

This is the type of blockbuster information the left and even many on the right refuse to report. We see with our own eyes how “Hammer” and “Scorecard” are being used in Wisconsin and Michigan. Will the President let it fly?

COVID-19 may take down an independent news outlet

Nobody said running a media site would be easy. We could use some help keeping this site afloat.

Colleagues have called me the worst fundraiser ever. My skills are squarely rooted on the journalistic side of running a news outlet. Paying the bills has never been my forte, but we’ve survived. We have ads on the site that help, but since the site’s inception this has been a labor of love that otherwise doesn’t bring in the level of revenue necessary to justify it.

When I left a nice, corporate career in 2017, I did so knowing I wouldn't make nearly as much money. But what we do at NOQ Report to deliver the truth and fight the progressive mainstream media narrative that has plagued this nation is too important for me to sacrifice it for the sake of wealth. We know we'll never make a ton of money this way, and we're okay with that.

Things have become harder with the coronavirus lockdowns. Both ad money and donations that have kept us afloat for a while have dropped dramatically. We thought we could weather the storm, but the so-called "surge" or "2nd-wave" that mainstream media and Democrats are pushing has put our prospects in jeopardy. In short, we are now in desperate need of financial assistance.

The best way NOQ Report readers can help is to donate. Our **Giving Fuel page** makes it easy to donate one-time or monthly. Alternatively, you can **donate through PayPal** as well. We need approximately \$11,500 to stay afloat for the rest of 2020, but more would be wonderful and any amount that brings us closer to our goal is greatly appreciated.

The second way to help is to become a partner. We've strongly considered seeking angel investors in the past but because we were paying the bills, it didn't seem necessary. Now, we're struggling to pay the bills. This shouldn't be the case as our traffic the last year has been going up dramatically. June, 2018, we had 11,678 visitors. A year later in June, 2019, we were up to 116,194. In June, 2020, we had 614,192. We're heading in the right direction and we believe we're ready talk to patriotic investors who want to not only "get in on the action" but more importantly who want to help America hear the truth. Interested investors should contact me directly with the contact button above.

Election year or not, coronavirus lockdowns or not, anarchic riots or not, the need for truthful journalism endures. But in these times, we need as many conservative media voices as possible. Please help keep NOQ Report going.
