Capitol - Steady Hand

Utah Is Home

You have the opportunity to make your voice heard in who leads our state through the challenges we face not just today, but for years into the future.

There are two things that you need to do in order to help us make history:

- 1.) Confirm your voter registration by visiting www.huntsman2020.com. You must be a registered Republican to vote in the June 30 primary election or you will not receive a ballot and will not be able to vote.
- 2.) Complete and submit your mail ballot as soon as you receive it. Mail ballots will be sent out from your county clerk on June 9th.

Utah has experienced 15 years of continued economic growth as a result of Governor Huntsman's forward thinking policies and Republican leadership at every level of government.

The biggest mistake we can make right now is to think small. My economic plan will double Utah's economy over the next ten years, creating thousands of new jobs and unprecedented prosperity in every corner of our incredible state. I am running for governor to lead Utah to greater heights than ever before and I ask for your vote.

You should have received your ballot in the mail this week and I encourage you to vote for the Huntsman/Kaufusi ticket. Due to the impact of the coronavirus, county clerks in all 29 counties mailed ballots to hundreds of thousands of registered voters.

As a result, experts are expecting that voter turnout will be higher than usual. Make sure you don't miss out on this incredible opportunity to make your voice heard! For more coverage on this election cycle's likely historic voter turnout, please [click here](#) to read the KSL article.

If you are one of the thousands of Utah voters who have recently switched party registration from unaffiliated or Democrat to Republican and received a by-mail ballot this week that contained no Republican races, no need to worry, election officials say.

It's just a timing issue.

Ballots were mailed by the June 9 deadline, and reflect registration status when mailings were prepared. But people who recently switched party registration to Republican, will indeed get the GOP ballots they want and the initial ballots without Republican races have been automatically voided.

"We've had lots of phone calls and emails because you know that this happens every primary. It happened in the presidential primary" in March, said Salt Lake County Clerk Sherrie Swensen. She's also sent emails to people who recently switched party status to explain the situation.

She explains that to have ballots mailed by the legal June 9 deadline, she had to send vendors lists of how people were registered as of May 15 — as did most other counties.

"But there have been a lot of changes since then," she notes.

Dear Ricky,

As ballots continue to drop in mailboxes throughout the state, please make sure that your ballot lists "Jon Huntsman" and "Michelle Kaufusi." If you are a registered Republican and receive a ballot that doesn't have mine and Michelle's name listed, please contact your county clerk right away by visiting www.huntsman2020.com/countyclerks

Marc, as we discussed by phone, the following are the drafting instructions I've provided for my proposed bill:

For ballot initiatives/referenda/constitutional amendments: Require on the ballot 2-3 explanatory bullet points for and 2-3 against for all initiatives/referenda/constitutional amendments to improve transparency and to help voters understand the implications of voting for or against the proposed initiative. Also, establish an independent commission that will study each proposed ballot initiative that has received adequate, qualified signatures and issue a statement that will be included on the ballot briefly stating whether the ballot, as written, can be implemented or if it will require legislative involvement if passed.

1. scrap our committee bill until next year and fight his bill.
2. try to incorporate his intent into our committee bill in a manner that works for us and him.
3. Try to fix our committee bill and work with him separately on his bill.
4. Tweak our committee bill to focus solely on judge retention.
5. Other ideas - I'm sure there are plenty of options

Other thoughts:

- I don't see a feasible way that we can accomplish both his and our goals. He wants the additional language right on the ballot, not in an insert. He did agree that perhaps shortening the original ballot language to a very short ballot title, then adding the argument bullet points for/against might be possible, but even that is quite long.
- He said that he'll run his own bill if we can't figure out a way to get this in our bill. Not threatening, but this is his top priority bill.
- He thinks the additional cost and potential voter confusion of a 2-card ballot is worth it if it means the voters better understand these difficult-to-understand initiatives and referenda.
- The independent commission opinion on whether a certain initiative could be implemented or not might resonate with the legislature after medical cannabis and medicaid expansion had to be changed, and the legislature got heat for doing what needed to be done.
- He's brand new. How much influence can he have on the process and what's the chance of his success in this?
- I don't want to fight against him. Would prefer to have a good relationship, and it would look bad to the committee if we say we want plain language and then fight a plain language bill.
- I'm not sure I have the bandwidth to rewrite our committee bill between now and the start of the session. Not sure any of you have bandwidth either, with that little March 3 election coming up.
- How bad would it look to scrap or dramatically alter our bill, after it was made a committee bill?

I'm unsure how best to proceed and could use your ideas. I got Steve to agree to wait until Friday for a response and direction.

More details on his intent and Marc Roberts's advice are in the emails below.

Thanks!

R.

This part of the report is intended to provide a clear and concise description of the methods used in the study, so that other researchers can replicate the study if they wish.

3. The third part of the report is a conclusion that summarizes the findings of the study and provides recommendations for future research. The conclusion is based on the results of the analysis and provides a clear and concise summary of the findings. It also provides recommendations for future research, based on the findings of the study. This part of the report is intended to provide a clear and concise summary of the findings of the study, so that other researchers can understand the results and use them in their own work.

1. The first thing I noticed when I stepped out of the plane was the humidity. It was a warm blanket, wrapping around me in a way that felt both comforting and overwhelming.
2. The humidity was not just a feeling; it was a physical presence. It clung to my skin, seeping into my clothes, and making every breath feel like a struggle.
3. I had heard that the humidity in this city was legendary, but I didn't realize it would be this intense. It was like being hugged by a giant, invisible hand.
4. The humidity was a constant companion, following me everywhere I went. It was in the air, on my skin, and even in the walls of the buildings I entered.
