488	A voter would like to report that on the review page, her selection for president was changed to the opposite of what she picked. She states that she did not touch it a second time (it was the first thing that came up for the review and was wrong). It was expressvote 06414.	TRAC
	We have one BMD that intermittently will eject the ballot immediately upon the voter inserting it. Sometimes works, sometimes not. Any remedy? We are not busy at this time so we are just keeping the doors closed so voters do not choose it. Thanks!
