**Subject:** Re: ES&S ECO 1103

Christina,

I have reviewed ECO 1103. I agree with Tom that the proposed change is de minimis and would not adversely affect the system, and therefore a formal in-person examination is not required for this modification.

Because the proposed modification improves the overall operation of this system, I would recommend approval of the modification proposed by ECO 1103.

Thanks,

**Chuck Pinney**

Chuck,

I reviewed the ECO. I believe this is a de minimis change to the system and have no concerns about the new CMOS battery.

Tom
