Subject: Mobile Driver License Project Invitation

Senator Fillmore

Thank you for your continued support of the Division. The Driver License Division is excited to be moving forward in our efforts to provide an option for residents to have their driver license or identification card on a smartphone or mobile device. We anticipate a news release regarding the mobile driver license(mDL) or identification card within the next couple of weeks. We would like to invite you to experience the Proof of Concept (POC) ahead of time.

The POC illustrates what a mobile driver license is and how it can be utilized. An mDL is significantly more than just a digital image on your phone, it is a secure, verifiable and controlled way to share your identity with only those who need it. The mDL allows you to control the amount of information you share when being asked to present a driver license. The division is facilitating this proof of concept to educate people about the mDL and gather feedback on how the mDL may be enhanced or functionality improved prior to implementing a production model.

If you would like to participate please follow the 3 steps below to get started:

1. [Click here to fill out a brief form](#) to input your information for your mDL.

Instruction for enrollment form:

You can upload your picture from your computer or take a Selfie picture for now.

(Once we move to the live pilot phase your DL picture will be used along with the info from your current DL Record)

Please use a picture that is of you and could be used to verify you. (Should be facing directly at the camera similar to your Driver license picture. This will help with the verifier app, as the verifier will be able to do a match.

2. Download the GET Mobile ID app and the GET Mobile Verify app.

Download the GET Mobile ID application is available [here](#) for apple and [here](#) for Android.

Download the GET Mobile Verify application [here](#) for Apple or [here](#) for Android.

3. To activate your Mobile DL app you can email rbwilliams@utah.gov and let him know you have downloaded the application and he will email you a QR code. Or you can sign up for a quick Zoom call [here](#) to finish your enrollment with the GET Group.

If you have difficulties or questions please contact Ryan Williams for assistance. He can be reached at rbwilliams@utah.gov or by phone [801-440-9783](tel:801-440-9783).

Once you have your mDL, we encourage you to show others how it works. Let them know about this exciting advancement in Identification. Again we also encourage you to give us feedback. During the POC and the Pilot program we have an opportunity to make any necessary changes or improvements and ensure we provide the best product to Utah residents when the production model is publically available. Therefore your input is critical to the overall success of the project.

Here is a link to a feedback form to allow you to provide feedback or suggestions regarding the mDL: <https://forms.gle/3mZXXAAocP2Zs7LB9>

Respectfully,

Chris Caras
