Subject: Mobile Driver's License

Senator Fillmore,

I have just become aware of the mobile driver license pilot program that you have led the effort to implement. I am concerned by the very obvious potential for abuse by both government agencies and private data miners. The claim that this will somehow enhance privacy measures seems ridiculous on its face. This opens the door to what will shortly become another easy way to collect data on every detail of Utah citizens' lives. The assurances that only the driver's license information will be stored offers no comfort because that guidance can be changed as quickly as the software can be written.

It is not hard to imagine this as the gateway to a social credit program, vaccination tracking, purchase tracking etc. etc. Whatever its intent, this program provides too tempting a target for both government and private misuse.

I am extremely disappointed to learn that your name is not only associated with, but spearheading this program!

This makes me question my previously enthusiastic support for you as my representative.

-Brian Stringham
