

counties currently administer their own elections), contract with an election vendor, or contract with any county or municipality which offers a RCV administrative option (Utah County provides this option).

*In 2019 HB277 was passed it stated: "upon approval by the lieutenant governor, a municipality may enter into a contract or agreement with any local political subdivision in the state, regardless of whether the municipality is located in, next to, or near, the local political subdivision, to conduct an election during which the municipality is participating in the Municipal Alternate Voting Methods Pilot Project."*

\_\_\_\_\_ County has contracted with all of our cities to administer their elections for the past several years. We have done this because we feel we can offer a service and product of value to our cities in which we have confidence. It is a product that we know, that we have fine-tuned over the years, the same product we offer during even numbered elections. **Cities have never been obligated to contract with the County, and the County has never been obligated to contract with a city.** Each year this has been a mutually agreed upon arraignment. If a city in \_\_\_\_\_ County chooses to participate in the Alternative Voting Pilot Project and use RCV, they should be able to do this, but \_\_\_\_\_ County should not be required to administer it.

HB 75 obligates the county to provide a new service that we do not know, that we do not believe in, that we do not support, and in which we do not have confidence. In summary, a county should not be compelled to provide a service for a city.

Respectfully,

---

Thanks again to everyone for your work on this, and especially Ricky.

Lincoln,

Here are the recommendations that if we can get in place, I believe the Clerk's can be neutral on this bill. Happy to work with the drafting Attorney to make this work and weed out any other potential issues if the Senator wishes.

### **Recommendations**

- State that the only data points that can be shared from voter information with political parties and candidates are:
  - Name
  - Address
  - Party Affiliation
  - Age
  - Voter History
- Make it so that voter information is only available to Political Parties in the State of Utah and Candidates in the state of Utah.
- Specify that voter information may only be used by the political party for purposes of the political party within the State of Utah, and may only be used by a candidate for campaign purposes within the State of Utah.
- Grandfather in all current "Private Voters". This is the only way to remove the fiscal note since you would no longer need reprogramming and the mailer.
- Use existing language from Maryland law that, voters may request their records be private and not shared with anyone if they are:
  - Victims of Domestic violence and/or human trafficking
  - Law enforcement
  - Persons being threatened
  - Victim of or witness to a felony
  - Others on grounds that the disclosure of the individuals address poses a safety threat or is likely to lead to an unwarranted and serious invasion of privacy.

### **As noted before, here are the concerns of the Clerk's on this issue:**

- Protection of voter information has been a long standing issue and concern. The public is opposes the open sharing of their data to anyone who wants it. Currently there are little to no restrictions on what can be done with the data regardless of the intended use.

ballot style." By missing that step, a ballot style for your husband's precinct was not created on his voter access card. When he inserted his card into the voting machine, instead of displaying a ballot, it was **blank**. (A ballot was not displayed so he could not have cast any votes!)

A blank voter access card causes a red **generic** default error to appear indicating, "*This voter access card is already voted. Please remove it from the machine.*"

The poll worker called the Election Help Desk so that the voter access card could be cleared, and one recreated so a ballot would be displayed any your husband could actually vote.

The poll workers you spoke to were referring to properly enabling the voter access card, which is a generic information transmitting device. Votes are not stored on a voter access card. The vote access card allows a voter's ballot to be shown on the touchscreen.

When votes are cast on an electronic voting machine, they **CANNOT** be cleared. There are three redundant memories of votes cast on the machine, in a paper trail, an internal memory and on a memory card locked inside the machine.

**Subject:** SB297-Marriage bill impacting Clerks-please provide input ASAP

SB297 came out Thursday, passed through Committee on Friday, and will be discussed in the Senate early next week. It addresses anti-discrimination, allowing for some religious exemptions. It also impacts our offices.

**This email summarizes how SB297 impacts Clerks, and suggests some possible amendments. PLEASE PROVIDE YOUR INPUT!**

Here's how it impacts County Clerks:

- County Clerks will be required to provide couples with access to a marriage officiant.
- Clerks could not force an employee to solemnize a marriage, if doing so would go against that employee's sincere religious or deeply held beliefs.
- Other government officials who have authority to solemnize marriages would be required to either 1) agree to solemnize all marriages, regardless of whether they are traditional or same-sex, OR 2) agree not to solemnize any marriages, except for family members. "All in or all out."

The bill's intent is: if a couple wants to get married, and cannot find someone to officiate, the Clerk must provide them with access to an officiant. That officiant could be the Clerk, an employee, or any individual who is authorized to solemnize marriages (i.e., pastor, spiritual leader, judge, mayor, etc.). The officiant must be "reasonably available," which was described by the bill's sponsor as "on call."

**The main issue of concern to us is whether Clerks should be forced into the marriage ceremony business.** State code allows Clerks to choose whether or not to solemnize marriages. This bill forces Clerks to either solemnize marriages or to designate someone to solemnize marriages. I doubt any Clerk wants to be forced to solemnize marriages, even if they choose to solemnize - this choice should remain with the Clerk. However, the bill appears to provide Clerks with the ability to provide access to an officiant without being forced to be an officiant, and that is through the "designee" language.

The bill's sponsor said he is willing to work with Clerks to address our concerns. The bill says that the Clerk must establish a "policy to ensure that the Clerk or the Clerk's designee is reasonably available to solemnize."

Here are some possible amendments that might satisfy all parties:

1. **The Clerk provides a contact list of "designated officiants" to applicants.** These officiants must agree to comply with state code governing marriages, and to be "reasonably available" to solemnize marriages. The couple can then contact their desired designated officiant, and schedule the ceremony directly with them. The Clerk may choose to be on the list, or to put an employee on it, or both, or neither. I know Utah & Weber Counties (and probably a few others) already provide a list of judges who solemnize. This option may involve some extra work to keep the list current.
2. **The Clerk designates someone as an officiant for a day, with specific authority only to perform the wedding that is being requested.** Massachusetts currently does this. Note, the designated officiant is

I told him the clerks would still oppose, but we had a good discussion. He is very reasonable, But the parties want this in place, and it will ipass pretty easily.

Curtis and lincoln, after we meet with representatives stenquist, we could meet with him to talk a little more. I don't think it will change anything, but he would appreciate a meeting. Lincoln, I know you're super busy, so if that doesn't work for you, that's fine.

After talking with him a bit, I can see him as an ally for us in the future. He is leaning against ranked choice voting.

Many of you already know Shelly from her work with Davis County and Weber County. We're very excited for all the county elections experience she will bring to our office.

If you need to send Shelly an email you can reach her at - [shellyjackson@utah.gov](mailto:shellyjackson@utah.gov).

Thanks,

Justin

1. Analyze VISTA enhancement/fix requests from the counties, and provide a prioritized list of recommendations to the elected clerks for approval before providing the list to the LG's office.
2. Serve as the first line of support for VISTA users statewide, rather than having VISTA-related questions go directly to the LG's office.

With these two roles, it is important that members of this VISTA steering committee know VISTA inside and out.

**Before next Monday, please provide Ryan (feel free to Reply All) with the name of the person your county designates to be on this committee.**

For ballot initiatives/referenda/constitutional amendments: Require on the ballot 2-3 explanatory bullet points for and 2-3 against for all initiatives/referenda/constitutional amendments to improve transparency and to help voters understand the implications of voting for or against the proposed initiative. Also, establish an independent commission that will study each proposed ballot initiative that has received adequate, qualified signatures and issue a statement that will be included on the ballot briefly stating whether the ballot, as written, can be implemented or if it will require legislative involvement if passed.

agreed that it's in everyone's best interest for us to try to come up with language that satisfies everyone, if at all possible.

So what do we do now? Here are some options:

1. scrap our committee bill until next year and fight his bill.
2. try to incorporate his intent into our committee bill in a manner that works for us and him.
3. Try to fix our committee bill and work with him separately on his bill.
4. Tweak our committee bill to focus solely on judge retention.
5. Other ideas - I'm sure there are plenty of options

Other thoughts:

- I don't see a feasible way that we can accomplish both his and our goals. He wants the additional language right on the ballot, not in an insert. He did agree that perhaps shortening the original ballot language to a very short ballot title, then adding the argument bullet points for/against might be possible, but even that is quite long.
- He said that he'll run his own bill if we can't figure out a way to get this in our bill. Not threatening, but this is his top priority bill.
- He thinks the additional cost and potential voter confusion of a 2-card ballot is worth it if it means the voters better understand these difficult-to-understand initiatives and referenda.
- The independent commission opinion on whether a certain initiative could be implemented or not might resonate with the legislature after medical cannabis and medicaid expansion had to be changed, and the legislature got heat for doing what needed to be done.
- He's brand new. How much influence can he have on the process and what's the chance of his success in this?
- I don't want to fight against him. Would prefer to have a good relationship, and it would look bad to the committee if we say we want plain language and then fight a plain language bill.
- I'm not sure I have the bandwidth to rewrite our committee bill between now and the start of the session. Not sure any of you have bandwidth either, with that little March 3 election coming up.
- How bad would it look to scrap or dramatically alter our bill, after it was made a committee bill?

I'm unsure how best to proceed and could use your ideas. I got Steve to agree to wait until Friday for a response and direction.

More details on his intent and Marc Roberts's advice are in the emails below.

Thanks!

### **HOMICIDE**

- 1 in 3 female murder victims and 1 in 20 male murder victims are killed by intimate partners.<sup>16</sup>
- A study of intimate partner homicides found 20% of victims were family members or friends of the abused partner, neighbors, persons who intervened, law enforcement responders, or bystanders.<sup>17</sup>
- 72% of all murder-suicides are perpetrated by intimate partners.<sup>18</sup>
- 94% of murder-suicide victims are female.<sup>19</sup>

### **PHYSICAL/MENTAL EFFECTS**

- Victims of intimate partner violence are at increased risk of contracting HIV or other STI's due to forced intercourse and/or prolonged exposure to stress.<sup>20</sup>
- Intimate partner victimization is correlated with a higher rate of depression and suicidal behavior.<sup>21</sup>
- Only 34% of people who are injured by intimate partners receive medical care for their injuries.<sup>22</sup>

### **ECONOMIC EFFECTS**

- Victims of intimate partner violence lose a total of 8,000,000 million days of paid work each year, the equivalent of 32,000 full-time jobs.<sup>23</sup>
- Intimate partner violence is estimated to cost the US economy between \$5.8 billion and \$12.6 billion annually, up to 0.125% of the national gross domestic product.<sup>24</sup>
- Between 21-60% of victims of intimate partner violence lose their jobs due to reasons stemming from the abuse.<sup>25</sup>
- Between 2003 and 2008, 142 women were murdered in their workplace by former or current intimate partners. This amounts to 22% of workplace homicides among women.<sup>26</sup>

I'm guessing he wants to know how many ballots have passed vote history and sig ver, but that have not yet been scanned and tabulated. If that's the case, would you see any measurable additional costs to obtain and publish these numbers? If so, how much?

Also wondering if we should ask him if we can amend to have this be a best estimate.

Thanks,

R.
