Utah Lieutenant Governor's Office  
801-538-1501

We have been contacted by a voter that returned his ballot, but when he goes to [vote.utah.gov](http://vote.utah.gov) to find out if his ballot was received he gets the error message below.

We uploaded the file into Vista, it displays in the Agilis FTP under the finished reports. Below is the line for the voter showing it on the report that was uploaded into VISTA and Vista does show his ballot as returned on 10-15-18.

Below is a screen shot of the voter's record to show the data entry was correct in your ballot tracking feature when we received the message that the address could not be found.

### Signature Witnessing

State of Utah)

County of Salt Lake )

On this 13 day of December, in the year 2018, before me, Hindra S. Gantay,  
date month year name of notary public

personally appeared [REDACTED], proved to me through satisfactory evidence  
name of document signer

of identification, which was Utah ID  
form of identification to be the person whose name is signed on

the preceding or attached document in my presence.

(notary signature)

(seal)

machine that she was assigned to. When she asked what it meant, she was told that the screen display said, "Ballot Cast". The poll workers then set about trying to figure out how to cancel that ballot so that [REDACTED] could vote. Concerned about leaving her class without a teacher, [REDACTED] left the election center at 7:40 AM to travel to work. Poll workers explained that they would figure out how to cancel her ballot and give her a call to let her know that she could return to vote. At 8:05 AM [REDACTED] received a call asking her for more information so that election officials could differentiate her from another voter with the same name, then, at 8:35 AM she received word that her ballot had been cancelled and that she could return later in the day to vote. She was invited to skip the line and come directly to [REDACTED] who would assist her. [REDACTED] left work 90 minutes early that day in order to cross town and vote prior to her evening commitments. She was able to cast her vote on the return visit.

## **LEGAL AUTHORITY**

Title III of HAVA, section 301(a), outlines the minimum standards for polling locations used in federal elections. It states that all voting systems must be accessible to persons with disabilities. 52 U.S.C. § 21081 (a)(3)(A). Additionally, Title III outlines particular requirements that states must satisfy, including providing non-visual accessibility to the blind and visually impaired and maintaining at least one voting system at each polling location equipped for persons with disabilities. Id. § (a)(3)(A-B). Under Title III voting opportunities provided by elections officials to persons with disabilities must "be accessible .... in a manner that provides the same opportunity for access and participation (including privacy and independence) as for other voters(.)" 52 U.S.C. § 21081 (a)(3)(A).

## **SUGGESTIONS FOR RESOLUTIONS OR MODIFICATIONS**

Poll workers should be trained to proficiently:

- 1) demonstrate the ability to position and set up a voting machine or ballot marking device in a manner that ensures that voters can vote privately and independently equal to voters who do not require accessible features.
- 2) assist voters using accessible features such as: the audio ballot, changes in text size and contrast, touch screen and key pad.
- 3) provide directions and assistance to voters with disabilities in a respectful manner, demonstrating appropriate etiquette for voters with a variety of disabilities.

Dear Mr. Lee:

This letter serves as a complaint under Title III of the Help America Vote Act (HAVA). It details the experiences of two Salt Lake County voters, [REDACTED]

[REDACTED] who requested the use of the audio ballot at separate locations in order to exercise their right to vote privately and independently. Unfortunately, they encountered barriers in this attempt. Subsequently, [REDACTED] contacted the Disability Law Center requesting assistance with the HAVA Complaint Process. Their experiences are detailed as follows.

#### DESCRIPTION OF VIOLATIONS

[REDACTED]

This morning I went to vote at the Trolley Square location (600 S. 700 E. #D-117). I was able to locate where they were holding elections rather easily this time because I was using AIRA (visual interpretation technology) which was able to guide me where to go.

Once I got to the room, I was immediately grabbed by a polling volunteer. I had to communicate, twice, that it was not OK for them to grab me!

Once I got up to the table, the woman did not know how to access and give me an accessible voting ballot card. Because I have done this enough times, I was able to describe to her what she needed to do. Another polling volunteer also overheard our conversation and came over and assisted her. Once I had the card, I was directed over to the machine. There was only one machine with headphones but it was not in use luckily, I did not have to wait. The keypad was not plugged in because when my card was inserted nothing happened. The polling volunteer was right there and we were able to figure out that the keypad was not plugged in. Once everything was plugged in properly, and I figured out which way to install the ballot card (there are no

Hi Cindy,

For every ballot returned by mail, we compare the signature on the ballot envelope affidavit to the signature on the voter's registration record. The signature is the version of identification that is required for a voter returning a ballot by mail. This is a copy of the signature box that is on the ballot return envelope.

**Voter must sign the box below in order for ballot to be counted**

(NOTE: Your email and phone number will only be used by the Election Division if we need to contact you.)

The State Vital Records does a match of deceased voters in the statewide database every two weeks. If a voter is identified in that list as deceased, it puts that record into a "suspense" status.

We also check the obituaries on an ongoing basis and put voters identified in the obituaries as suspended in the database.

Often times the surviving family members notify us of a deceased family member.

We sent the ballot order to the printer on September 27<sup>th</sup>. [REDACTED] could have been deceased after the ballot order was placed. I could not find his name in the obituaries. However, the signature verification and the fact that voters are signing the **sworn affidavit** on the ballot return envelope, has secured our vote-by-mail elections.

If the caretaker had called us, we could have explained this to her.

**Subject:** [REDACTED] Voter Reg Issue

Hi Sherrie and Pam,

It appears there is an issue with [REDACTED]'s (Voter ID [REDACTED]) voter registration.

He marked his party affiliation as United Utah Party on [REDACTED], but his affiliation is listed as Unaffiliated. I don't see any documents that show he changed anything after July 13, 2017.

He recalls receiving something from you that says he was affiliated with UUP, but I'm not seeing anywhere in VISTA that records him as being UUP, just unaffiliated. I'm guessing there was some bug with the party right after we certified them, which would have been July 13.

It looks like he party affiliation should be updated to match his form.

Let me know if you see anything I'm not seeing.

Thank you,  
Justin

We had this same issue with the ballot tracking feature in 2016. It is causing us to receive many phone calls and email messages from concerned voters. Can you do something about this feature so it will work correctly?

Please let me know what the plan of correction is for this.

Thank you,

When the voter enters the birth date, it prompts the DD/MM/YYYY format like so:

If this is causing too much confusion for the users, we will definitely look at making the date format prompt or error message easier to understand for future iterations of the website.

I apologize that you're getting a lot of phone calls and emails regarding the website. Do you have other specific issues that we can help with, or is your staff receiving calls and emails from voters who generally say that the website won't work?

Thanks,  
Derek

We had this same issue with the ballot tracking feature in 2016. It is causing us to receive many phone calls and email messages from concerned voters. Can you do something about this feature so it will work correctly?

Please let me know what the plan of correction is for this.

Thank you,

Ricky:

I will call you later about this. I have spoken with a number of the people on this email about similar concerns. After I explained a couple things about the way I crafted the statute, they are more comfortable with the language.

Hi Tom,  
Some additional feedback from county election folks.

I would recommend that lines 48-50, 61-62 and 110-111 be removed.

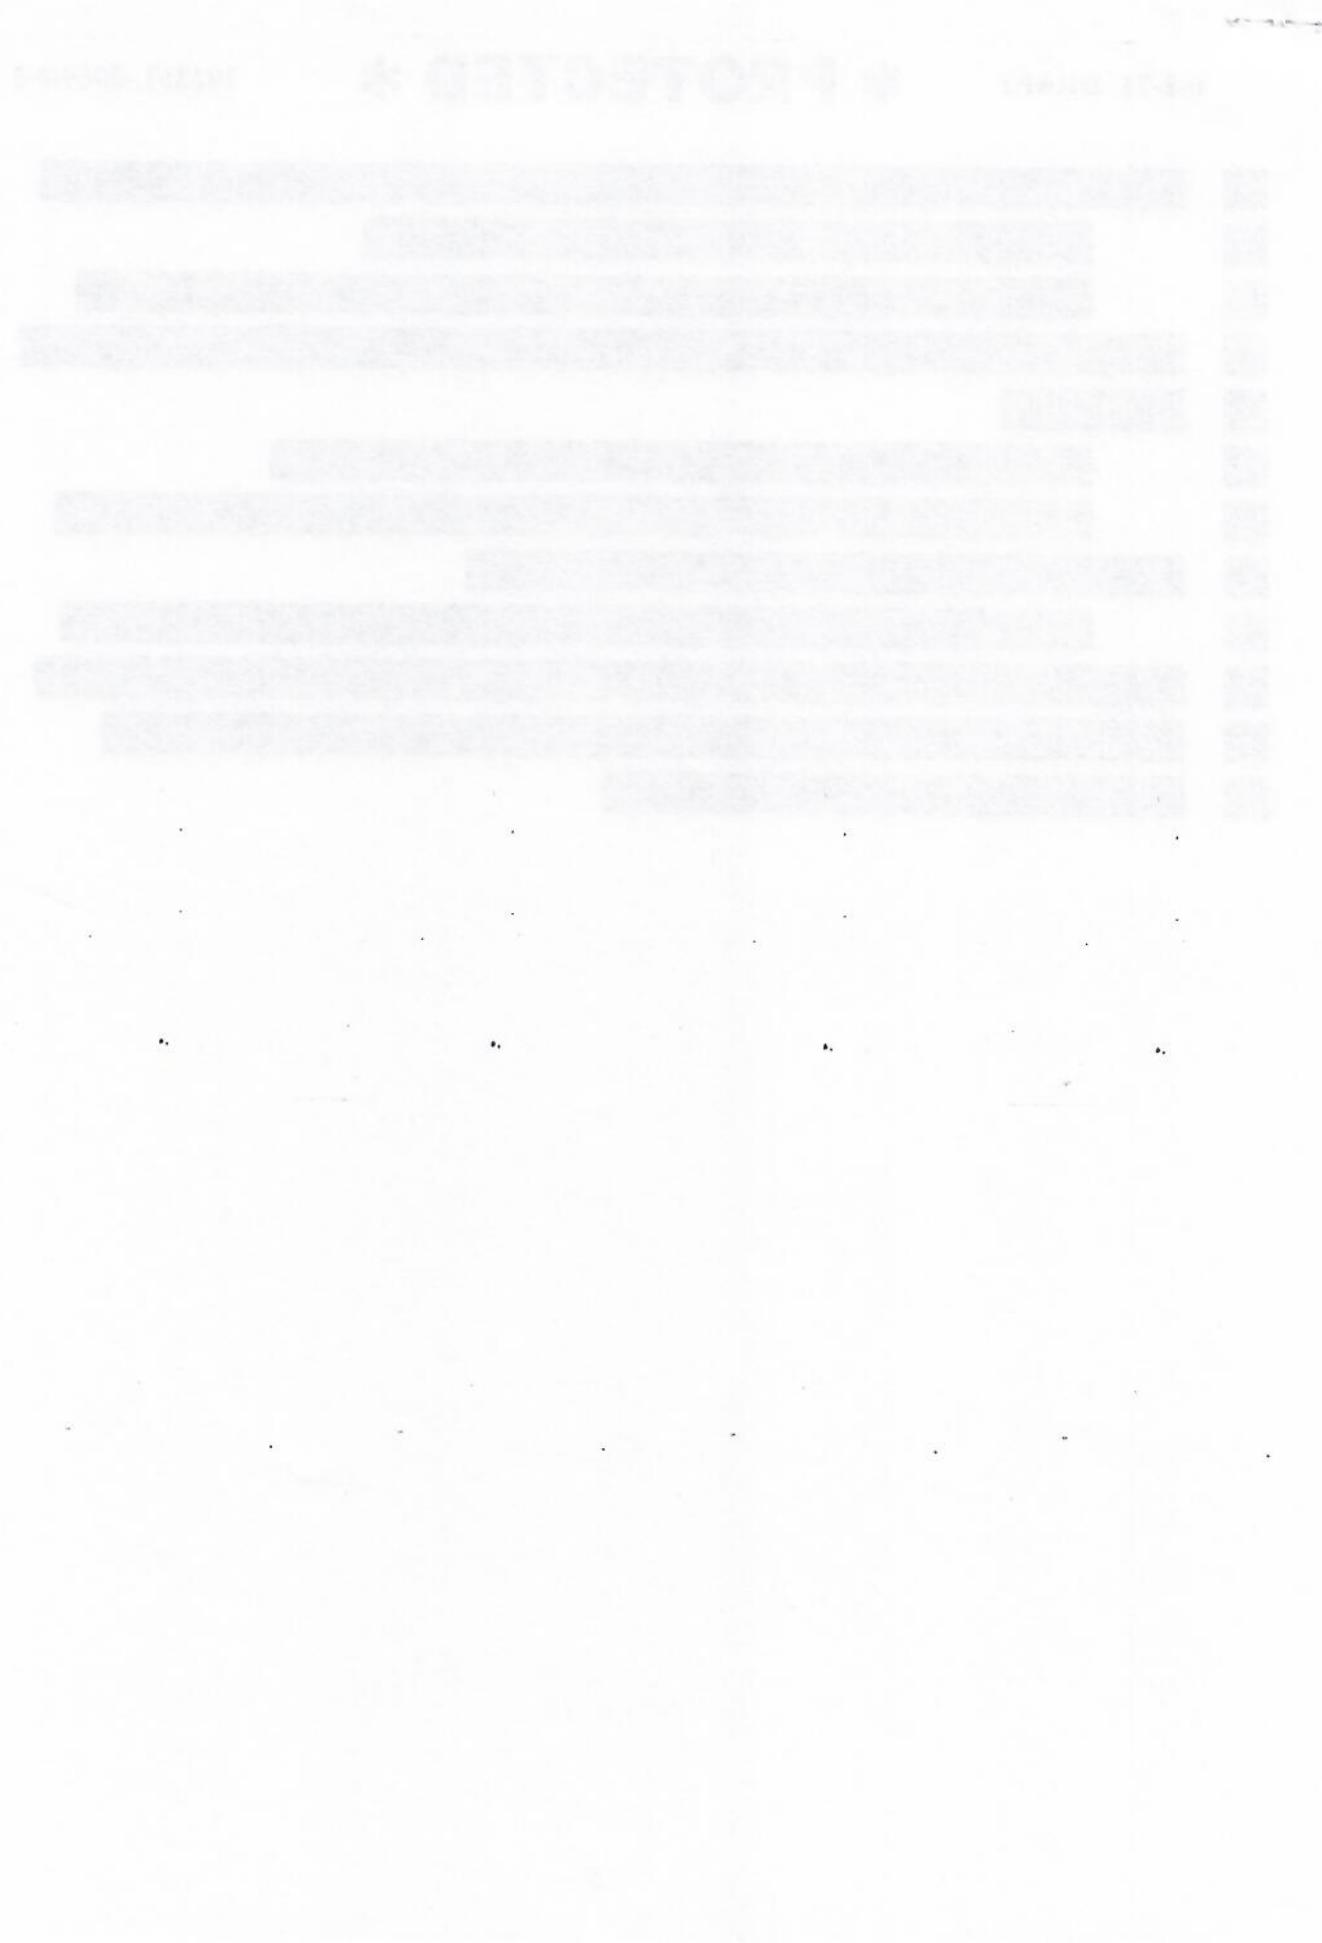

Line 55

The same principles apply

Happy to talk by phone if that's better for you.

Thanks so much!  
Ricky

All:

Senator Iwamoto has asked me to send the attached bill to you for review.

I am checking with my staff to see if they received anything.  
Do you know who made the challenge, by which method (mail, or email) and on what grounds?

**Subject:** Challenge to [REDACTED]

Hello Sherrie,

I received a phone call that there was a challenge to [REDACTED] candidacy. Can you provide me with any information on that? Was the challenge made during the appropriate challenge period?

Just looking for any background before I call him back.

Thanks,  
Justin
