Thank you for your work on this. If it is an estimate then this is something that we can do with little to no impact on our current processes.

Spoke with Rep. Hall today. I told him that even with the suggested changes below, the clerks would still not like his bill, because it takes us away from counting the actual results. He agreed to allow the number to be an estimate, and to replace "voted ballots" with "ballots received by the election officer that have not yet been processed." Better, but still an unnecessary distraction from doing what we should be doing.

Any other thoughts?

Thank you to Peggy Reeves for calling out the missing attachment, now here with my apologies.

Brian Newby

As the next step in the statutory process for approving modifications to the VVSG, the Standards Board had scheduled a meeting last month to consider VVSG 2.0 and make its own recommendations to the EAC. That meeting was cancelled and the next meeting of the full membership of the Standards Board will now be rescheduled by the EAC, in coordination with the Standards Board Executive Board. We hope that the date and location of this meeting can be announced later this month.

However, the unfortunate cancellation of the January meeting does provide more opportunity to you for review VVSG 2.0 and submit your own comments.

A spreadsheet listing each specific VVSG 2.0 Guideline is attached to this email (and is the same spreadsheet provided to you earlier with the initial transmission of the VVSG 2.0, but contains comments previously submitted). Please use this spreadsheet to set forth any additional comments on the specific guidelines so that they can be compiled for presentation to the other members of the Standards Board and to the EAC.

While the next Standards Board meeting will be the proper forum for our consideration of VVSG 2.0 by the full membership of the body, we will also have the opportunity to present initial *individual* comments received from members to the EAC at a meeting of that body tentatively scheduled for Tuesday, February 13, 2018. As Chair of the Executive Board, I will present all of your comments received as of that date for the record, but plan to emphasize that prior consideration and approval of these proposals by the full membership of the Standards Board is essential for compliance with the letter and spirit of the law providing for the proper sequence of timing of the public comment period on VVSG 2.0.

To provide individual comments for presentation at the February 13 EAC meeting, please respond to my email and copy Brian Newby, at [bnewby@eac.gov](mailto:bnewby@eac.gov). The EAC Testing and Certification staff will compile the comments for the meeting.

I understand that the EAC hopes to initiate the required 90 day comment period and consider incorporating the comments it receives into VVSG 2.0, and that the final version of VVSG 2.0 can be presented to the Commissioners for a vote this summer.

If you have questions about the VVSG 2.0 modification process, or concerning specific parts of that proposal, please email or call me at 317-233-0929, or email or call Brian Hancock, Director of Testing and Certification, at [bhancock@eac.gov](mailto:bhancock@eac.gov) or 202-459-7861.
