VOTING SYSTEM TEST LABORATORIES (VSTL)

Section 231(b) of the **Help America Vote Act (HAVA) of 2002** (42 U.S.C. §15371(b)) requires that the EAC provide for the accreditation and revocation of accreditation of independent, non-federal laboratories qualified to test voting systems to Federal standards. Generally, the EAC considers for accreditation those laboratories evaluated and recommend by the **National Institute of Standards and Technology (<http://www.nist.gov/itl/vote/nvlap.cfm>)** (NIST) pursuant to HAVA Section 231(b)(1). However, consistent with HAVA Section 231(b)(2)(B), the Commission may also vote to accredit laboratories outside of those recommended by NIST upon publication of an explanation of the reason for any such accreditation.

In order to meet its statutory requirements under HAVA §15371(b), the EAC has developed the EAC's Voting System Test Laboratory Accreditation Program. The

procedural requirements of the program are established in the proposed information collection, the EAC **Voting System Test Laboratory Accreditation Program Manual** . Although participation in the program is voluntary, adherence to the program's procedural requirements is mandatory for participants. The procedural requirements of this Manual will supersede any prior laboratory accreditation requirements issued by the EAC. This manual shall be read in conjunction with the EAC's **Voting System Testing and Certification Program Manual** (OMB 3265-0019).
