Subject: Re: Harding County Candidate Filing Question

Good Morning!!

My gut says we qualify the person, and then after the election we get them properly registered to vote. However, that may be dependent upon some specifics and particulars. I'll call both Counties to unpack your situations.

-- Daniel.

Daniel,

I hope that you are having a great day and are staying safe in this crazy world!! I ran into a question with someone who filed yesterday and wanted to get your opinion on this matter. I have cc Union County Clerk Office because they had a similar incident.

I have a lady who has a card from the 90s when she filled out her VR, and she has 18 miles SE of Mosquero as her address. I am checking with the Assessor's office to see if this is actually within Harding County boundaries or not. I believe that it may not be, if I am correct do we still qualify her because her voter registration is in Harding County or not because physically she is not in county?? Thank you for your assistance and knowledge in this matter. I appreciate all your help.

Sincerely,

Ms. CJ Garrison

Subject: Test Deck order for Harding County

Hi CJ,

We did not receive your Survey so can you please provide the number of test decks you would like and when?

Test Deck Notes:

A **complete** deck contains both the standard and special decks for each ballot style and is how the decks are generated by Dominion. If requested, Robis can separate the standard pattern ballots from the special pattern ballots and print them as stand-alone decks.

A **Standard** deck contains the ballots voted in the standard pattern.

A **Special** deck contains the over-votes, under-votes, damaged, and blank ballots.

Unless otherwise specified, **blank** ballots will be the first ballot style from the complete deck, in whatever quantity you request. If you have a certain ballot style or pattern you would prefer, please specify in your request.

Subject: RE: Ballot cancellation for Harding County

Great to hear! For your process, is there a reason to have both AB Ballot Spoiled AND Ballot Spoiled or would Ballot Spoiled cover both? Just want to know if we can update the current naming or if you would like an additional status.

If there is a process for each that is different, could you please explain how you intend to use each of them so we can configure to match your usage?

Thank you!

Hi Aaron,

Thank you for your email. All of these voters are in our "All Mail" district, are inactive in our system and have been for some time. Therefore, we did not want to send a ballot to an address that they may no longer be at. We also sent a letter prior to voting asking if they wanted to be removed from receiving a ballot and heard nothing either. CJ also confirmed with the SOS that we do not mail to inactive voters.

Thank you,
Melissa

Good Afternoon,

As I was going over things in my office for ED, I wanted to let you know that we would like to have y'all take away early voting BOD and printer and SDR election morning, please. We did not have any room to store boxes so they took all boxes for them when they left after setup. We appreciate your time and effort in helping us in this matter. Any questions please contact us, thank you.

Sincerely,

Hi CJ,

I will include a few talking points so that you're able to respond to your commission.

- The SOS provided information to all county commissioners clarifying their statutory role/authority under the election code. See attached.
 - The certification is based on the county clerk's report to the board
- The State of New Mexico currently complies with all state and federal law regarding the recertification of our voting systems. All information regarding the recertification of our voting systems can be found online on the SOS's website at the following URL: <https://www.sos.state.nm.us/voting-and-elections/data-and-maps/voting-system-certification-committee/>
- Our office has determined that the election night results page data is not from our website

Call if you need anything else.

Good luck!

Mandy

Good Morning,

So sorry to bother y'all but we are canvassing at 9am this morning and I was just sent this email. It looks like she sent it to my Commissioners in effort for them to not certify election. Can you please advise as to what I need to tell my Commissioners?? Thank you

Sincerely,

Ms. CJ Garrison

To: Victoria Villarreal <V.Villarreal@hardingcounty.org>
Subject: Important Election Information - Requesting Harding County Commissioner to NOT Certify Our Elections.

Dear Harding County Commissioners & County Clerk (via Victoria Villareal):

All commissioners need to know, certification of the vote total from an election that was conducted (and still not fully counted) on non-compliant equipment will expose the commissioner collectively and individually to criminal and civil liabilities.

Please find the attachments to this email:

- 1.) Proof the 2022 Election was stolen, again. (Fraud)
- 2.) The SOS says the machines are not certified, (knowingly breaking the law.)
- 3.) Proof the machines are not legal. (FixNMElectionProblem)

The attachments have information regarding that our voting systems are not certified, voter Intimidation, pollbook anomalies and violation of process, significant evidence of manipulation in election night reporting and actions that must be taken.

I am requesting you to review the attachment and perform two things as part of the county canvass because of the anomalies already apparent in the election results:

1. Provide the Cast Vote Record to a competent individual for analysis to look for evidence of ballot stuffing or machine manipulation. A preliminary analysis can be completed in a matter of hours by someone who knows what they're looking for.
2. Ensure that the number of votes by precinct and vote type in the election results reconcile with the voter history in the registration database.

If any anomalies in 1 or 2 are found, then demand a full hand recount of the election prior to certification. The clerks and commissioners have the authority to grant these requests. We must hold them accountable and assure them that they will have our support if they take these steps to protect the people of New Mexico and our confidence in our elections.

County Commissioners must give us answers for why votes disappeared in multiple races last night. Commissioners have authority to do a more thorough review than a simple rubber stamp of certification. The law only requires you to certify CORRECT election returns. Please prove to us they're correct before we sweep another fraudulent election under the rug.

Without Election Integrity our future is at stake for WE THE PEOPLE and our children.

Thank you,
Cynthia Canner
